## PROCEEDINGS OF THE ANNUAL TOWN MEETING

**MARCH 13, 1962**

Pursuant to the warrant for the Annual Town Meeting, the inhabitants of the Town of Franklin qualified to vote in Town affairs assembled in the High School on Tuesday, March 14, 1962 at six o'clock in the forenoon.

The Polls were closed at eight o'clock P.M., at which time the register on the ballot box showed that 2,761 ballots had been cast therein, the names checked on each voting list were then counted by the election official openly and in a distinct and audible manner, the numbers being 2761, total men voted 1465, total women voted 1296.

Immediately following the closing of the polls, all unused ballots were enclosed with a case and the same sealed and certified to by the election officers. All the check lists used were then sealed, as provided by law and certified to by the election officials. All the ballots cast by the voters, as aforesaid, were sorted, counted, and declaration thereof made by the Town Clerk in open meeting as follows:

**SPECIAL PROCEEDINGS OF THE  
ANNUAL ADJOURNED TOWN MEETING**

**MARCH 19, 1962**

The meeting was called to order at 7:40 P.M. by Moderator, Paul A. Cataldo, in Dean Junior College Gymnasium. Warrant and return of Warrant was read by Town Clerk, George W. Dana.

The Moderator called for all to stand in a moment of silent tribute to the memory of our late Moderator, Romeo Assetta.

The Moderator appointed the following to act as Tellers and they were sworn to the faithful performance of their duties: Richard Costello, William Carberry, Lewis J. Cataldo, Walter Jackson, Romeo Palumbo, Anthony Vignone.

At 8 P.M. it was voted to adjourn the Annual Adjourned Town Meeting until this Special Meeting is dissolved.

Article 1. To see if the Town will vote to construct, equip and furnish a new building to be used as a Police Station and Police Headquarter, the same to constitute an addition to the Town Fire Station at the corner of West Central and East Streets, and raise and appropriate by transfer from available funds, by tax levy, by issue of bonds or notes of the Town pursuant to the provisions of Chapter 44 of the General Laws, and all Acts amendatory thereof or supplementary thereto, or by issue of bonds or notes of the Town pursuant to the provisions of Chapter 645 of the Acts of 1948, and all Acts amendatory thereof or supplementary thereto, or by any one or more of such methods, or by any other lawful method or methods, a sum of money sufficient to pay the cost, or estimated cost of such construction, equipment and furnishing, and designate the Department or Departments or Committee of the Town that shall direct and control the work and expenditures of money contemplated by such vote, with full authority to enter into all agreements or contracts necessary or incidental to the performance of the work involved, or do or act anything relating thereto. (Police Station Survey Committee)

VOTED: That this article be indefinitely postponed.

Article 2. To see if the Town will vote to appoint the Board of Selectmen and the Chief of Police, together with two other citizens of the Town to be appointed by the Moderator, as a Police Station Building Committee with full authority to enter into any and all agreements or contracts necessary or incidental to the construction, equipment and

furnishing of a new Police Station and Police Headquarters that the Town has voted to construct, equip, and furnish, or do or act anything relating thereto. (Police Station Survey Committee)

VOTED: That this article be indefinitely postponed.

Article 3. To see what sum of money the Town will vote to raise and appropriate for rental of the Town Police Station and Police Headquarters at its present location, in the "Morse Block" so called, or at said present location plus additional space on the same level, under lease for not less than five (5) years, the Town to assume all costs of renovations, repairs and maintenance during the term of such lease, or do or act anything relating thereto. (By Selectmen)

VOTED: That this article be indefinitely postponed.

Article 4. To see what sum of money the Town will vote to raise and appropriate for rental of new space in the "Morse Block" so-called, for re-location therein of the Town Police Station and Police Headquarters, under lease for not less than five (5) years, the Town to assume all costs of renovations, repairs and maintenance during the term of such lease, or do or act anything relating thereto. (By Selectmen)

VOTED: That this article be indefinitely postponed.

Article 5. To see if the Town will vote to raise and appropriate, or appropriate from available funds, a sum of money for the purchase of an accounting machine to be used by various departments of the Town, or take any action relating thereto. (By Assessors)

VOTED: That this article be indefinitely postponed.

The meeting adjourned at 10:01 P.M.

A true record, Attest:

GEORGE W. DANA,

**REPORT AND RECOMMENDATION OF THE TOWN PLANNING  
BOARD TO THE ANNUAL ADJOURNED TOWN MEETING**

**March 1962**

In accordance with the provisions of Chapter 40A, Section 6 of the General Laws, a public hearing was held in the Town Hall on Monday, February 19, 1962 at 8:30 P.M. to modify the zoning map of the Town of Franklin, Massachusetts by changing from Single Family Residential III to Commercial I a parcel of land situated on the South side of East Central Street and bounded Northerly by East Central Street.

There were no abuttors or objectors present. After hearing the case of the petitioner's attorney, the Planning Board felt that the only question was a matter of spot zoning. Considerable research was done in this area and it was the unanimous opinion of the Planning Board that there is sufficient reason to modify the zoning map of the Town of Franklin, Massachusetts.

**RECOMMENDATION:** That the Town vote to modify and change the zoning map of the Town of Franklin from Single Family Residential III to Commercial I with respect to a parcel of land situated on the Southerly side of East Central Street and bounded Northerly by East Central Street 430 feet more or less; Easterly 365 feet and Northerly 124 feet by land now or formerly of Harry Bullukian and Jennie Bullukian; Easterly by land of Ralph W. Cook, Jr., and Ronald C. Cook 135 feet more or less; Southerly by land of Frederick W. Stobbart, Jr. and Eleanor J. Stobbart and by land of Frederick W. Stobbart, Sr. and Frederick W. Stobbart, Jr. 334 feet more or less; Northerly 90 feet and Westerly 36 feet by land of Neil McGroary; Northerly by land of Herman C. Yankee and Maria H. Yankee and by land of Margaret I. Austin, 177 feet more or less; and Westerly by land of said Margaret I. Austin 130 feet more or less.

Respectfully submitted,

JOHN R. PADULA  
NORMAN C. RISTAINO  
ROBERT E. FICCO  
NICHOLAS GIARDINO

## **REPORT AND RECOMMENDATION OF THE TOWN PLANNING BOARD TO THE ANNUAL ADJOURNED TOWN MEETING**

**March 26, 1962**

In accordance with the provisions of Chapter 40A, Section 6 of the General Laws, a public hearing was held in the Town Hall on Monday, February 19, 1962 at 7:30 P.M. on the following matter: to modify Section III C paragraph 18 of the present zoning laws of the Town of Franklin, Massachusetts by inserting the following paragraph:

- b. Multi-family dwelling or apartment houses for not less than four families if located on a lot for an area in accordance with the following schedule:

first four families	20,000 sq. ft.
each family thereafter	5,000 sq. ft.

After hearing the pros and cons of approximately eight (8) people, the Planning Board feels that the demand for multi-family dwellings to replace some of the older structures in the more developed parts of our town is increasing. Also the possibility of an urban renewal project which would replace many older structures with multi-family dwellings seems eminent in the near future. Therefore it is the unanimous opinion of the Planning Board that it would be in the best interest of the citizens of the Town of Franklin to adopt this article.

RECOMMENDATION: That the Town vote to modify the present zoning laws in the following manner or do anything relating thereto: Section III C paragraph 18 insert the following paragraph:

- b. Multi-family dwelling or apartment houses for not less than four families if located on a lot for an area in accordance with the following schedule:
- |                        |                |
|------------------------|----------------|
| first four families    | 20,000 sq. ft. |
| each family thereafter | 5,000 sq. ft.  |

Respectfully submitted,

NORMAN C. RISTAINO  
JOHN R. PADULA  
ROBERT E. FICCO  
NICHOLAS GIARDINO

**TOWN OF FRANKLIN  
PLANNING BOARD**

June 5, 1962

Franklin, Mass.

**REPORT AND RECOMMENDATION  
TO THE SPECIAL TOWN MEETING**

In accordance with the provisions of Chapter 40A, Section 6 of the General Laws, a public hearing was held in the Town Hall on Monday, June 4, 1962 at 8:00 P.M. on the following matter: to modify the zoning map of the Town of Franklin, Massachusetts by changing from a Commercial II District to an Industrial II District a parcel of land situated on the Northwestern side of Cottage Street and on the Southwestern side of Union Street, bounded by Cottage Street, Union Street, Franklin Paint Road and the New York, New Haven & Hartford Railroad.

There was one person present and no objections were raised.

Due to the fact that the parcel of land in question is now zoned Commercial, the industries presently located on said parcel are operating as non-conforming uses. Since the adoption of this article will in no way change the general structure of the neighborhood, the Planning Board feels that this change would be in the best interest to the citizens of the Town of Franklin, Mass.

**RECOMMENDATION:** That the Town vote to modify the zoning map of the Town of Franklin, Mass. by changing from a Commercial II District to an Industrial II District that certain piece or parcel of land situated on the Northwestern side of Cottage Street and on the Southwestern side of Union Street, and bounded and described as follows: Beginning at the Southeasterly corner of said premises on said Cottage Street at its intersection with said Union Street, and thence running Southwesterly by said Cottage Street across the right of way of New York, New Haven & Hartford Railroad to land now or formerly of Franklin Woolen Company; thence turning and running Northwesternly by said way to the right of way of said New York, New Haven & Hartford Railroad; thence turning and running Northeasterly by said right of way of New York, New Haven & Hartford Railroad to said Union Street; and thence turning and running Southwesterly by said Union Street to the point of beginning.

## QUESTION NO. 1

Do you approve of the adoption of an amendment to the constitution summarized below which was approved by the General Court in a joint session of the two branches held May 13, 1959, received 143 votes in the affirmative and 118 in the negative, and in a joint session of the two branches held March 29, 1961, received 144 votes in the affirmative and 121 in the negative.

## SUMMARY:

The proposed amendment imposes no new taxes but gives the General Court the power to pass an income tax at graduated or proportioned rates and is a change in the constitutional limitations now in effect on the power of the General Court to pass tax measures. The proposed amendment would add a new Article to the Constitution of the Commonwealth by which full power and authority is granted to the General Court, in the alternative to the power and authority to tax incomes in the manner provided in Article XLIV of the Amendments to the Constitution, to impose a tax on incomes at rates which are proportioned or graduated according to the amount of income received, irrespective of the source from which it may be derived, and to grant reasonable exemptions, deductions and abatements. It further provides that any property the income of which is taxed under the provisions of the proposed Article may be exempted from the imposition and levying of proportional and reasonable assessments, rates and taxes as at present authorized by the Constitution, and that the Article shall not be construed to limit the power of the General Court to impose and levy reasonable duties and excises.

**REPORT OF DOG OFFICER**

December 31, 1962

To the Honorable Board of Selectmen:

I hereby submit my report relative to dogs in the Town of Franklin during the calendar year of 1962.

Number of dogs licensed	665
Number of Kennels licensed	21
Number of stray dogs killed and buried	119
Number of dogs killed by cars	96
Number of dogs struck by cars and destroyed	21
Number of dogs killed by request of owner	11
Number of dogs restrained	0

I have answered 461 complaints pertaining to dogs. This is an increase of 174 over last year. There was an increase in the killing of livestock and poultry by dogs during the past year.

It is important that all owners of dogs license these animals in their custody which are three months old or reach the age of three months during the year.

Attention is hereby called to the following extract from Chapter 136A as amended by Chapter 111, Acts of 1943 of the General Laws:

"The owner or keeper of a licensed dog shall cause it to wear around its neck a collar or harness of leather or other suitable material, to which shall be securely attached a tag in the form prescribed by the director, and upon which shall appear the license number, the name of the town issuing such license and the year of issue."

Respectfully submitted,

HENRY D. BROGAN,

Dog Officer

## FIELD DRIVER'S ANNUAL REPORT

December 6, 1962

To the Honorable Board of Selectmen:

During the year 1962 there were three cases of stray animals, all were taken care of promptly.

Respectfully submitted,

HENRY J. BARDOL,

Field Driver

## REPORT OF FRANKLIN AUXILIARY POLICE

January 7, 1963

To the Honorable Board of Selectmen, Town of Franklin, Mass.

The Auxiliary Police have completed nine years of active and we believe useful service to the town. The Unit is maintained at 31 men and they give approximately 5000 hours of duty each year.

The people have seen the men on duty and realize when and what conditions a lot of the duty is done, that it is appreciated we know by expressions voiced by some.

This past year we spent \$1,250.00 on equipment, \$500.00 of this from the town. We purchased 4 mobil radios, 1 portable radio, mittens, gloves, hat covers, and vests. Much of this was new orange-glo for safety.

With the regular department we sponsored the Circus in July which was a big undertaking and when we saw the children's faces well worth doing. We thank all that helped make this a huge success.

To Chief Arthur Pellegrini and his department, the Board of Selectmen and to the people of Franklin for your cooperation we all express our thanks.

To the members of this Unit my humble thanks and appreciation.

Respectfully submitted,

GEORGE H. ELLIS,

Chief Auxiliary Police

**REPORT OF THE SEALER OF WEIGHTS AND MEASURES**

January 3, 1963

Board of Selectmen  
Mr. James Dacey, Chairman  
Town Hall  
Franklin, Massachusetts

Gentlemen:

I submit for your consideration a summary of my activities as Sealer of Weights and Measures for the calendar year 1962.

After careful test to insure accuracy, 276 individual measuring devices were sealed.

274 pre-packaged commodities were re-weighed to prove accuracy of price and contents.

Fees collected for sealing were turned in to the Town Treasurer. Total fees came to \$182.20.

Respectfully submitted,

ROBERT R. SHARP,

Sealer of Weights and Measures

### Building Permits

186 Building permits were issued by the Building Inspector for the year 1962. Total cost of construction was \$2,163,330.00. Of these permits 103 were for single family houses for a total construction cost of \$1,167,-500.00. This represents a decrease of 50 in the total number of building permits issued. Also a decrease of 43 in the number of single family

houses approved. However, the estimated cost of construction for Franklin in the year 1962 increased a total of \$369,615.00.

## REPORT OF FRANKLIN HOUSING AUTHORITY

January 8, 1963

To the Honorable Board of Selectmen:

In accordance with the new chapter 667 of State Housing Board general Laws the Franklin Housing Authority was authorized by a Town meeting vote to construct an additional 40 units of 3 room apts. for their elderly citizens 65 years or older. These new apts. are now being engineered and designed by the firm of Wm. Nelson Jacobs, Inc., Architects-Engineers of 316 Stuart Street, Boston, Mass. They will be located adjacent to the present 667-1 Homes for the elderly project between West Park and Wachusett Streets on approximately  $2\frac{3}{4}$  acres of land purchased from Richard Costello. They will be advertised for general contract bids and ground breaking on or about April or May of 1963 and expect to be ready for occupancy by December of 1963. Any citizen of the State of Mass. and preferably those of the Town of Franklin 65 years or older are urged to file their applications with our director.

The Franklin Housing Authority takes this opportunity to thank the Honorable Board of Selectmen, The Board of Public Works, The Board of Public Welfare, the Police and Fire Departments and any and all social and civic organizations and the general public for their splendid co-operation and assistance given to us during the past year.

Respectfully submitted,

## REPORT OF THE CONSERVATION COMMISSION

To Honorable Board of Selectmen:

As to Land reported at Indian Rock--the owner has deceased and her Estate is under Melen Trust Company of Pittsburg, Pa.

To date we have no definite information--previously, this land was for free. This will be followed through to conclusion. As to former C C Camp land under the Dept. of Natural Resources, which is about 837 acres--we have been assured that this land will be held for conservation. However, if our Commission wishes use of any portion of this land, they would give us consideration. They have high hopes of accelerating a forest program to put this area in top producing condition.

We anticipate having an article in Town Warrant for the Town to turn over approximately 102 acres of town-owned property remaining town ownership after sale of old Town Farm to a Rest Home. This land is important to this Commission--possibility of soil conservation forest with a brook on the property.

Also, the Commission are inserting an article in Town Warrant to accept approximately 6 acres of land donated to Town of Franklin by Walter Millette, Developer of the Fox Hill Subdivision along Charles River near Medway Line, off Pond Street.

Your Commission has moved and studied very carefully as to the purchase of land--finding other towns have taken overdue tax title property only to find out they did not have a clear title to the property.

Realizing the high burden of taxes confronting our town due to new schools, water and sewerage, which are a must, are moving very carefully as to requesting sums of money for purchase of land for conservation.

For Year 1962--our expenses were \$54.00 for dues to Mass. Association and Convention at Hotel 128.

We respectfully request \$1,000.00 for Year 1963 under an article.

We Invite all Town Officials, School Committee, and all Citizens to cooperate with our Commission for the future of our younger generation of the future.

Respectfully submitted,

ALBERT F. GRANGER, Chairman  
ROGER A. RONDEAU, Secretary  
ROBERT E. FICCO  
WOODROW L. ABBOTT

## ANNUAL REPORT OF THE BOARD OF HEALTH

There were 258 reports made to this office on Communicable Diseases of these there were 50 Dog Bites.

There were no Poliomyelitis cases reported in the town during the year 1962.

A Polio Clinic was held by the Board of Health in conjunction with the State Department of Health, for Children three months old to and including all first grade pupils. Oral type vaccine Sabin 1 was given at no charge.

231 Plumbing Permits were issued this year.

109 Percolation Tests were taken for sewage disposal sites on new home sites.

A large number of complaints on Nuisances were received and checked out by our Agent. These Nuisances were all abated by the persons responsible. One person was taken to the District Court after the owner failed to abate the nuisance after being ordered by this office to abate it.

A permanent appointment was given to Peter Polastri as Plumbing Inspector in October after Certification from the Division of Civil Service.

Permits and Licenses were issued for the following:

Kindergarten	7
Day Camps	2
Undertakers	5
Milk and Oleo	42
Frozen Foods and Ice Cream	2
Pasteurization	3
Burial Permits	42

Respectfully submitted,

BOARD OF HEALTH

There was a considerable amount of absenteeism in our lower grades particularly during December. Parents are urged to keep children out of school when they show symptoms of acute illness and to seek early medical advice when it is indicated.

Professional meetings attended relating to Health 16

A request has been made for the additional services of a part-time nurse to help meet the needs of our population increase. This increase is most notable among families averaging 4-5 children.

Clerical service is also a need. I am most grateful for three years of volunteer time to meet this need donated by Mrs. Frances Henry.

I would like to thank the school physicians, our local dentists, and school personnel for their interest and co-operation; Dr. Mercer for assistance with vision screening, and the parents for their co-operation in the promotion of the health program.

I am also most grateful to the volunteers who assisted at our community Polio Clinics and Chest Clinics; to the Lions Club for financial assistance for correction of eye defects, and to the civic-minded citizens who have made donated funds available.

Bedside nursing visits are not included in this report. Figures for this service are submitted to the Franklin Nursing Association.

Respectfully submitted,

ANNE M. CURTIN,

Registered Nurse

## REPORT OF THE FIRE DEPARTMENT

January 4, 1963

To the Honorable Board of Selectmen:

The fire department responded to 32 box alarms during the year 1962. In addition, we had a total of 78 alarms for car and chimney fires, 8 resuscitator calls made by local physicians and 2 rescue calls. Mutual-aid response was made to the town of Wrentham twice by request. Our total runs for fires, forest fires and ambulance calls totaled 586.

During the year the fire department suffered two great losses. Deputy Chief Ernest Ward passed away in January after serving in the department for a great number of years. In October, Chief Connor J. Pond retired after 40 years of service to the department. During his tenure as chief, he devoted a great deal of time in bringing the department to the high standards that it is. It is with deep gratitude that the department wishes him many happy years of retirement.

Our greatest problem at the present time is that of man-power. It is increasingly difficult to obtain members for the call department due to the requirements of Civil Service and the fact that a great many men now work out of town.

In the budget, I have requested that a new permanent man be appointed to alleviate some of the man-power problems. I have also requested a pay increase for both the regular men and the call men.

For the year 1963, I recommend the sum of \$50,109.00.

Respectfully submitted,

CHARLES S. GUERRA,

Chief

## REPORT OF THE FOREST FIRE DEPARTMENT

January 4, 1963

To the Honorable Board of Selectmen:

During the year 1962 the Forest Fire Department responded to 113 wood, grass and brush fires, in addition to mutual aid calls to Medway, Wrentham and Bellingham for woods fires.

We did not have a major forest fire in 1962 but we did have a great many small fires plus many calls to the town dump for fires. The town dump remains a great trouble spot in this respect.

New hose was purchased for the trucks this year.

Our forest fire trucks are now 26, 24 and 16 years old respectively. I recommend that consideration be given to a replacement program for these trucks in the near future.

For the year 1963 I recommend \$3,100.00.

Respectfully submitted,

CHARLES S. GUERRA,

Forest Warden

## REPORT OF CIVIL DEFENSE DIRECTOR

To the Honorable Board of Selectmen:

Gentlemen:

It is my pleasure to submit the following report for Franklin Civil Defense for the year 1962 as follows:

- (1) Intelligence—Selectmen of Town of Franklin—CDD, Dept. CDD.
- (2) Auxiliary Police Force—Trained by local Police Chief and members of regular force to control panic, direct traffic and take part in Rescue work. This unit of faithful and loyal men who perform thousands of hours of duty, I express my personal gratitude for such service by these men to the town.
- (3) Board of Welfare—To take care of emergency lodgings, feeding, clothing, registration, financial assistance, and evacuation with new prospects for welfare, schooling, and improvements under the new plan for Franklin.
- (4) Radio by RACES—And radio students for transmission of messages of Civil Defense. This unit of radio communications men have served many long hours of faithful service during Control Center CCX. Hurricanes, disaster service, I express my gratitude to these men who give so freely and sincerely of their time in the performance of duty.
- (5) Transportation—Control of school busses, transportation of supplies, evacuation of school children and personnel in emergency.
- (6) Auxiliary Fire—Hoping this year to organize a unit of volunteers to assist regular Fire Dept. in emergency. Announcement for volunteer recruits have been published in local papers with no results.
- (7) Dept. of Pubic Works—Engineering, control of highways, Water Dept., sanitation, decontamination, repair roads.
- (8) Medical and Nursing—Need of medical and nursing personnel to form emergency unit is very much needed. Mrs. Eleanor J. Stobbart, Nurse Officer of Franklin, with the assistance of Mrs. Shangraw and Mrs. Poellnitz deserve high praise for their devotion in giving nearby towns, churches and clubs instructions on Home Shelter and Preparedness courses, and Disaster Medical Care classes, during the year of 1962. Full records in 1962 detail reports.

- (9) Radiac Officer and Monitors—To determine by instruments when safe to approach contaminated areas, volunteers for this branch of service with knowledge on radiation is very much in want.
- (10) Education—In Franklin schools there is in process to instruct children what to do in Civil Defense emergency.
- (11) Industrial Facilities Personnel—Plans for survival of industries and how to cope with emergency.
- (12) Underwater Rescue—Team of men in underwater knowledge of Rescue. Approved by Mass. Civil Defense.

This year, 1962, many Franklin establishments, buildings, schools, and churches, have been surveyed by Army Engineers for public shelters, with very little hope of some buildings to meet Government protection factors.

I would like to suggest that the Town of Franklin is very much in need of an alerting signal or sirens in various locations about the town to alert the public of any impending dangers.

This year—a Franklin Civil Defense Plan—devised from the Massachusetts Plan was prepared and completed, and approved by the Area, State, and MCDA. This plan must be supported by the citizens of Franklin Civil Defense to obtain State or Federal assistance.

It is my pleasure to thank all officers, men and women, of every Town department and unit forces for the wonderful co-operation rendered in Civil Defense in the year of 1962, an agency in need of many volunteers to train for survival to minimize the effects of an enemy attack or natural disaster.

Training courses will be continued as units are formed on a volunteer basis. Complete activities in detail reports.

Respectfully submitted,

JOSEPH A. BORRUSO,

Civil Defense Director

In case of emergency for the ambulance call 528-2323. Otherwise call your family doctor in order to have the ambulance made available.

For the year 1963 I recommend \$4,000.00.

Respectfully submitted,

CHARLES S. GUERRA

### SUMMER RECREATION REPORT

The 1962 Franklin summer recreation program conducted at Fletcher Field ran for a period of eight weeks, July 3 through August 25.

#### Supervising Staff:

Director: Mr. William Rex.

Assistants: Mr. Ralph DeLucia, Miss Patricia McDonald, Miss Marilyn Longobardi.

#### Transportation:

A bus was utilized for transporting children to and from the playground. An average of 40 children rode the bus in the morning, and 70 in the afternoon.

#### Registration and Attendance:

Registration:	Total	Boys	Girls
	500	220	280
Average Attendance:		A.M.	P.M.
		110	170

### **Program:**

A program was planned with one or two feature events highlighting each week's activities. The weekly cook-outs proved to be the most popular group activity, with an average of 170 children. Other group events conducted were watermelon hunt, bubble gum contest, talent show, dress-up day, scavenger hunt, olympic games, and parents' night.

### **Activities for Young Boys and Girls:**

Under the direction of Miss McDonald and Miss Longobardi, an extensive arts and crafts program was conducted each morning. The arts and crafts included weaving, leather work, plastics, shell work, and woodwork.

The afternoon session found the young children enjoying sprinkler in the wading pool and taking part in organized games, such as kick-ball, checkers, croquet, bingo, and singing.

### **Activities for Older Boys:**

The boys activities under the direction of Ralph DeLucia were centered around sports. The sports which proved to be most popular were baseball, basketball, track, boxing, softball, shuffle board, and horseshoes. The use of the bus enabled competition with neighboring playgrounds in basketball, baseball, and track. A total of 12 baseball games, 6 basketball games, and 2 track meets were played with out-of-town teams.

### **Tennis Program:**

The last four weeks of the summer program tennis lessons were offered to the children of Franklin. The tennis program was under the direction of tennis pro, Bernard Kaminski. Forty children took advantage of his tennis instructions which were highlighted by a tournament conducted on the beginners and intermediate levels.

### **Summary:**

The 1962 recreational program was by far the most successful to date. The success was due to the increased number of activities added over the previous year and the untiring efforts of the complete staff.

The Playground committee would like to extend its thanks for the use of the Franklin Little League refreshment stand. The stand was opened for 30 minutes each afternoon to sell candy, ice cream, and soda, to the children.

**Recommended Action:**

1. That the program in 1962 be continued at Fletcher Field.
2. That the members of the 1962 staff be retained.
3. That the use of the bus to pick up children living great distances from the playground be retained.
4. That the wading pool be repaired as follows:
  - a. fill the cracks in the cement.
  - b. paint the pool and fix the drain. •
  - c. place a chain link fence around the pool to be locked when the playground is closed.

It should be noted that swimming is the nucleus of any summer recreation program. This pool if repaired offers great potentials for the young children, ages 5 to 9, that mothers might not want to send to the larger town pool alone.

**REPORT OF THE GAS INSPECTOR**

January 4, 1963

To the Honorable Board of Selectmen:

During the year 1962, a total of 271 gas inspections were made.

According to law, every old or new home in which gas is installed must have a gas inspection. This includes all new appliances in old homes as well as in new homes.

I recommend that the fees charged for inspections be increased and that the pay of the gas inspector be increased as these inspections, are very time consuming.

For the year 1963 I recommend the sum of \$500.00.

Respectfully submitted,

CHARLES S. GUERRA,

Gas Inspector

## FRANKLIN POLICE REPORT

To the Honorable Board of Selectmen:

It is my pleasure to submit the following report on the Police Department for the year 1962.

We made 109 arrests for the year, a breakdown appears in the lock-up keepers report.

We also investigated 351 automobile accidents an increase of 62% over 1961. 82 of the accidents involved personal injuries.

### **Personnel:**

Our department consists of 11 men and we need at least four additional men to keep up with the work that keeps piling up. I also recommend the addition of four police women to handle school traffic at the Brick School, Four Corners School, Library and the Old High School.

### **Station:**

We are stationed in the Legion building and are cramped for space. We have to bring all prisoners to Wrentham to be locked up. We are hoping that by next year at this time we are in our own station.

**Traffic:**

Traffic continues to be our major problem. With additional men we can devote more time to checking for traffic violations which will reduce the amount of accidents.

I want to thank the Auxiliary Police for their excellent cooperation during the year and all of the other town departments.

Respectfully submitted,

ARTHUR C. PELLEGRINI,

Chief of Police

For the year 1963 we will show movies, give safety lectures, check School buses and skating areas, distribute Safety posters and pamphlets and in general, endeavor to further enhance the continued safety of our School children.

We wish to thank School Superintendent Mr. Benjamin Thomas, his staff of principals and teachers, The Sister Superior and all the good sisters on her staff and the Registry Officials for the excellent cooperation afforded us in the past year.

Respectfully submitted,

WALTER F. CARR, JR.,  
Safety Officer  
FRANCIS G. CARRIGAN,  
Juvenile Officer

## REPORT OF THE FRANKLIN LIBRARY ASSOCIATION FOR THE YEAR 1962

The Franklin Library Association has had another successful year. Circulation was slightly less than 60,000.

The Association has experienced many personnel changes. Miss Mae Holmes and Miss Helen Simonds officially retired after having served the Library and the Town devotedly for approximately forty years each. Because of these retirements, there have been several personnel changes. The present library staff consists of the following:

Miss Diane DaVia, Chief Librarian  
Mrs. Jean Miller  
Mrs. Betty Swenson  
Miss Hazel Gay  
Mrs. Barbara Menadue

The staff is also assisted by two aides from the Franklin High School.

The Association has procured an automatic charging machine, which since September has already proven its efficiency in tabulating and charging all library members.

The officers elected for 1962 are as follows:

Mr. Ray Parmenter, President  
Rev. Trueman Menadue, Vice-president  
Mr. John Goodwin, Treasurer  
Mr. Ruston Lodi, Secretary

### BOARD OF DIRECTORS:

Mr. George Dana  
Mrs. Lincoln Dana  
Mr. William Garner  
Dr. James Howard  
Mr. Richard Howland  
Mr. Edmund Keefe

The Franklin Library Association wishes to thank all those who contributed toward making the Library a success for 1962. Such groups as:

The Volunteer Members of the Association and the Bookmobile

The Aldenette Club and the Community Service Department  
of the Alden Club

are still continuing their wonderful and unselfish work for the Library.

The Franklin Library Association respectfully requests that the sum of \$20,370 be granted its 1963 budget. Of this amount approximately \$2,640 will be reimbursed to the Town of Franklin by the State of Massachusetts.

Respectfully submitted,

RUSTON F. LODI,

Secretary

## DEPARTMENT OF VETERANS' SERVICES

January 8, 1963

To the Honorable Board of Selectmen:

Submitted herewith is the annual report of the Veterans Services Department for the year 1962.

This department is set up under Chapter 115, General Laws of the Commonwealth of Massachusetts, to render financial assistance to veterans and their dependents. Information is also given to those people who are eligible for pension, compensation, etc. from the Veterans Administration. In cases involving the expenditure of cash, the town of Franklin is reimbursed by the state in the amount of 50%.

A detailed account of expenditures will be found in the auditor's report.

I am very grateful to the town officials for their assistance.

Respectfully submitted,

CARMELITA HEALEY,

Veterans Agent and Director

## **REPORT OF THE INDUSTRIAL AND DEVELOPMENT COMMISSION**

To the Honorable Board of Selectmen:

The activities of this commission during the past year involved three basic projects:

1. Continued research on the assets and the liabilities of the town and the updating of local statistics.
2. The following up of leads and inquiries by people seeking information relative to industrial development in Franklin.
3. Assisting in the establishing of Franklin's newest industrial plant the Thomas Barnicle Macaroni Plant which was constructed under the ARA.

It is the hope of this commission to greatly expand its activities during the year 1963. In line with this we request an appropriation of the sum of \$1500 for the purpose of promoting industrial expansion in the town of Franklin.

Respectfully submitted,

FRANKLIN J. ADAMS, JR.,

Chairman

## **ANNUAL REPORT URBAN REDEVELOPMENT AUTHORITY 1962**

The Franklin Redevelopment Authority was elected by vote of the town meeting. During the past twelve months our progress was very rapid. It was agreed that to speed the application for Survey and Planning that we were to engage a consultant, after many interviews and briefings the associates of Candeub & Fleissig were engaged to act as our consultants. We were able to forward the application to the Federal Home and Housing Agency for planning and survey. The Federal Home and Housing Agency has approved the application and issued a grant of \$137,859.00.

The citizen committee has been formed and approved by the selectmen, Mr. John Cataldo is acting as Chairman.

The sum of \$2,000.00 was voted at the Town Meeting to be expended by the Authority. The initial consultants fee for services rendered was \$1,500.00 which was paid. The balance of \$500.00 was turned back to the town treasurer.

Mr. Richard Rowe resigned from the Authority in September to take a position in another State. Mr. Edward Monier was appointed by the Selectmen to replace him. Mr. Richard C. Morrissey was voted as the chairman of the Authority in place of Mr. Rowe.

The Ultimate aim of all Urban Redevelopment is to provide better homes, better jobs, a better community for all the people, but no goal which aspires to provide the best for the most is worth attaining if it is to be attained only by trampling on the rights of a few.

## **REPORT OF THE BOARD OF PUBLIC WORKS**

January, 1963

To the Honorable Board of Selectmen:

Gentlemen:

The following report of the Department of Public Works is hereby submitted signifying the rounding out of eight years of service to the Town of Franklin, Massachusetts.

The progress picture of the Department, as well as the Town, can best be presented by recognizing the rapid development of housing and the marked business expansion throughout this area.

Therefore, it is understandable that the Department of Public Works, with its many facets of operation, would be directly affected because of this tremendous expansion.

Consultations with experts in the Economic and Industrial Development Field corroborate our belief that an even greater expansion can be expected in the near future.

In order to prevent the excessive expenditure of money due to poor advance planning, this Department has formulated a program of progressive, orderly expansion of Public Works facilities, some of which with the proper support take shape in the coming year.

The interest of the Citizens of the Town in their Department of Public Works and a first-hand knowledge of the tremendous tasks being heaped upon it daily would go a long way towards a better understanding of what this Department is doing for them.

The following is a resume of the accomplishments of the various divisions of the Department during the year 1962:

18. Cleaning, Painting, Greasing, and Maintaining Town Equipment During the Year.
19. Put Up and Took Down the Flags in the Business District about 20 Times During the Year.

#### **WATER DIVISION:**

This division is operating at its maximum capacity, and it is hoped that the new well in Franklin, off Green Street, will be tied in this year thereby giving a very weak water system the necessary added capacity to keep pace with the increase in daily consumption and still have adequate fire fighting potential.

There are still a considerable number of old water meters to be replaced and an effective program of hydrant replacement is now being devised. All of this must be completed before an accurate account of the efficiency of the water system can be determined.

The following work was performed by the Water Division during the year:

1. Installed 62 New Water Services.
2. Installed 100 New Water Meters.
3. Removed, Repaired, Tested, and Replaced 115 Water Meters.
4. Turned Water Off and Removed 50 Water Meters.
5. Repaired, Tested, Replaced, and Turned Water on for 50 Water Meters.
6. Renewed 25 Old Water Services.

7. Repaired 55 Water Services.
8. Installed 6 New Hydrants.
9. Repaired 3 Hydrants.
10. Relocated 10 Hydrants.
11. Installed 350 Linear Feet of 8" Water Main on Grove Street Including 1 Tapping Sleeve and Gate, (1) 8" Gate Valve, (1) 6" Gate Valve, and 1 Hydrant.
12. Installed (2) 8" Main Line Gate Valves and Removed about 40 Linear Feet of 8" Water Main on Grove Street (Lowering the Water Main).
13. Thawed Out 20 Frozen Service Lines.
14. Flushed all Hydrants (635) in the Entire System.
15. Installed (7) 6" Hydrant Gate Valves at the Various Locations.
16. Inspection of all Water Main Installations in the Developments, about 3 Miles, Including Installation of Gate Valves, Hydrants, Water Mains, House Services, Water Meters, Tapping Sleeves and Gates and the Supervision of the Hydrostatic Pressure and Leakage Tests on all Water Systems before being Passed and Approved for Operation in the Town System.
17. Reading, Recording, and Billing for 3,300 Water Customers Twice During the Year.
18. Reading, Recording, and Billing for 30 Water Customers Monthly During the Year.
19. Statistical Information:
  - a. Total Water Pumped—281,963,107 Gallons.
  - b. Maximum Daily Consumption—2,310,000 Gallons.
  - c. Maximum Day of Pumping—1,540,000 Gallons.
  - d. Maximum Storage Capacity—1,500,000 Gallons.
  - e. Total Yearly Rainfall—39.07 Inches.
  - f. Maximum Monthly Rainfall—February—4.55 Inches.
  - g. Minimum Monthly Rainfall—July—2.07 Inches.
20. Total Water Commitments for the Year 1962:
 

a. April Billing Period	\$31,051.09
b. October Billing Period	45,081.26

c. Monthly Meter Bills	4,678.02
d. Labor and Material Charges (New Services)	3,041.04
e. Water Repairs	627.37
f. Hydrant Meter Bills	150.64
Total	<hr/> \$84,629.82
Increase over 1961—\$5,443.13	
Increase over 1959—\$26,629.82	

The Federal Government has been contacted and an application is on file for Federal assistance for improvements to the Town of Franklin water system under the "Federal Accelerated Public Works Program." If the Town becomes eligible for Government participation, the Town will receive a grant from the Federal Government for 50% of the cost of certain water works improvements.

#### SEWER DIVISION:

The Sewerage Treatment Plant designed for about 900,000 gallons per day has maximum daily flows of over 2,000,000 gallons per day, indicating the necessity of drastically increasing the plant capacity. Plans are being furthered to increase the capacity of this plant as well as extend the sewer mains making sewer services available to more residents of the Town.

The sewer charges which were initiated for the first time this year will be used as a basis for payment for some of the future improvements.

The following work was performed during 1962:

1. Excavating, Cleaning, Flushing, Repairing, and Replacing the Underdrain on Filter Bed Number 3.
2. Installing Crushed Stone of Various Sizes and then Topping with Filter Media of Proper Graduation on Bed Number 3.
3. Replacing Broken Distribution Pipe at Beds.
4. Dumping Sludge on Beds 4 Times During the Year.
5. Cleaning the Sludge Beds 4 Times a Year.
6. Replacing Sludge Pump Motor.

7. Cleaning, Painting, and Maintaining Sludge Pumping Station and Equipment.
8. Replacing Wheel Handle Gate Valve on Discharge Line at the Milliken Avenue Pumping Station.
9. Painting and General Maintenance at the Milliken Avenue Pumping Station.
10. Installation of a 2-foot retaining wall at the Milliken Avenue Pumping Station.
11. Repair Leak in Suction Line between Sludge Pump and Sludge Hopper at the Primary Clarifier at the Treatment Plant.
12. Replacement of Pump Motor and Installation of Lightning Arrester System at the East Central Street Pumping Station.
13. Repair Automatic Controls at the Lewis Street Pumping Station.
14. Installation of 18 New Sewer Services.
15. Repaired 25 Sewer Services.
16. Cleaned and Flushed 2,200 linear feet of Sewer Mains.
17. Unplugged and Cleaned 27 Sewer Services.
18. Total Yearly Treated Sewerage—315,672,152 Gallons.
19. Chemical Treatment of Sludge is Being Administered During Dumping Periods to Reduce Offensive Plant Odors.

An application to the Federal Government is on file for Federal assistance for improvements to the Treatment Plant and related distribution system, under the Accelerated Public Works Program. After review and study of the Town's application, it is possible that the cost of improvements can be borne by the Federal Government and the Town.

#### **TREE DIVISION:**

Due to the resignation of Mr. Domenic Depoto, Tree Warden for the Town for the past twenty-two years, the Tree Division which formerly operated on a part-time basis will now operate on a full-time basis under the direction of working foreman Edward Revell.

The work load of this division has been constantly increasing to such a marked degree that the integration as a full-time department is mandatory.

Work performed during the year is as follows: :

1. Decayed Trees

- a. Removed 51 Badly Decayed Trees.
- b. 48 Other Trees Have Been Topped and Will Be Taken Down When the Ground is Frozen to Prevent Damage to Lawns, Streets, Etc.

2. Trimming Shade Trees

- a. The Work Performed Was Done on an Emergency Basis to Protect Pedestrians, Homes, Cars, and Other Property Liable to be Damaged by Falling Limbs.
- b. It is Recommended that this Work be Substantially Increased and that More Money be Provided to Take Care of a Situation that is Becoming Progressively More Dangerous.

3. Gypsy Moth

- a. A 12% D. D. T. Solution for Dormant Spray was Applied to All Town Trees with the Town Mist Blower. The Second Application of 6% D. D. T. with Malathion was Applied with Helicopter, in Residential Areas, and the Rest of the Town was done with the Town Mist Blower.

4. New Shade Trees

- a. Planted 29 Norway Maples at Various Locations in Town.
- b. This is a Very Worthwhile Project Which Should be Continued in Order to Replace Elm Trees Being Taken Down Each Year Due to the Dutch Elm Disease.
- c. This Work can also be Classed as a Town Beautification Project, a Function which is Necessary to Maintain the Majestic Tranquility of the Town Enhanced only by the Installation of Proper Shade Trees.

5. Extermination of Dutch Elm Disease

- a. All Elm Trees along the Roadsides were Sprayed with a 12% Solution of D. D. T. with the Town Mist Blower. A Second Application of a 6% Solution of D. D. T. was Applied by Helicopter in the Residential Areas and the Rural Areas were done with the Town Mist Blower.
- b. Twenty-five (25) Samples from Elm Trees Suspected of Having the Dutch Elm Disease were Taken and Sent to the Mass. Shade Tree Laboratory, where Tests were Made and Fourteen Samples were Found to be Positive. These 14

Diseased Trees were Promptly Cut Down and Hauled to the Town Dump and Burned.

- c. Fifty-two (52) Tree Stumps were Cut out 6" Below Grade and the Holes Filled with Loam and Seed.

6. Poison Ivy and Brush Control

- a. All Roadsides were Treated with Brush Killer with the Town Spraying Equipment to Eliminate the Growth of Roadside Brush Cover. This Work is Really Proving Very Effective in Cutting Down the Heavy Growth on Roadsides which, when Let Grow Uncontrolled Involves Expensive Brush Cutting Operations.
- b. Thirty-two (32) Different Areas of Poison Ivy were Treated with Effective Maximum Yield.

## **RECOMMENDATIONS FOR THE DEPARTMENT OF PUBLIC WORKS**

1. The most necessary piece of equipment needed for all-around use twelve months of the year is a rubber-tired Backhoe. The Town has this year alone paid out over \$13,000.00 for rental of this type of equipment and in the best interest of economy the Town should own its own piece of equipment.
2. The equipment, including trucks, grader, bulldozer, etc., should be replaced periodically and when a piece of equipment becomes expensive to maintain it should, in the best interest of the Town, be replaced.
3. A periodic replacement program is now formulated and it is hoped that this program will be supported as both an economical and efficient practice not only for the present but for future years.
4. The purchase of a platform truck to be used in spraying operations, hauling away dead trees, as a sander and snow plow in the winter should be purchased this year.
5. A new pick-up with a utility body to replace the old, worn-out Water Division pick-up which will be transferred to the Tree Division for limited service is necessary in order to maintain efficiency in both divisions.
6. These pieces of equipment should be purchased this year if the equipment maintenance and replacement program is to be followed.

The Board of Public Works wishes to take this opportunity to thank all the citizens of the Town, Town Officials, and Employees of all Town Departments, the Service Clubs of the Town and Public Utility organizations for their excellent cooperation during the past year and then earnestly solicit their cooperation and valued assistance in the future.

Respectfully submitted,

Board of Public Works

KENNETH W. WHITE, Chairman  
EDWARD L. REVELL  
ROBERT C. HOWE

### LETTER OF RESIGNATION

After serving the Town as your Tree Warden and Superintendent of Insect and Pest Control for a period of twenty-two years, I now find it necessary due to the pressure of my own business to resign.

I wish to take this opportunity to express my sincere thanks to all the citizens of the Town, the Department of Public Works, and to all Town Departments also to the Educational Institutions, Service Clubs, Public Utility Organizations, and all Clubs and Organizations in the Town of Franklin for their interest and cooperation during my tenure of office.

Respectfully yours,

DOMINIC DEPOTO

## REPORT OF THE WIRING INSPECTOR

To the Board of Selectmen:

A total of 394 wiring permits were issued during the year of 1962. The Town Treasurer collected the sum of \$3,100.02 from these permits.

Respectfully submitted,

LOUIS F. MOLINARO,

Wiring Inspector

## ANNUAL REPORT OF BOARD OF SELECTMEN

The elected Board of Selectmen organized and voted James Dacey, Chairman; William D. O'Neil, Clerk; with Charles F. Hooper concurring in both instances. Mrs. Ruth Chism was appointed secretary, with meetings to be held each Tuesday at 7:30 P.M. unless the Town Clerk be notified otherwise.

Various actions took place during the year among which are the following:

Personnel Survey Board appointed, and a Committee for Study of Town By-Laws as directed by the voters at the Annual Town Meeting. Both Boards are functioning.

The Board in conjunction with the Board of Public Works made application for Federal Funds for a new well and sewerage treatment plant, also a reservoir. Money has been allocated for Preliminary Survey plans for the reservoir and work is proceeding on the well and sewerage treatment fund allocation.

New street lights greatly needed in various sections of the Town have been installed.

Improvements to the Town Hall include new steps to the side entrance, painting rooms, casing door in basement plus new handrails on basement stairs and improvements to front entrance; also enlarged parking area in Town Hall yard.

The Board spearheaded the preliminary plans for a new industry in Town. The Macaroni Factory on Grove Street is well on its way toward completion and will be a decided asset. A synthetic industry was located in the former Franklin Paint Co. building on Grove Street. This is a temporary location with plans for construction of a 60,000 sq. ft. plant on Beaver Street in the near future.

Resignation of Richard Rowe as Chairman of the Urban Redevelopment Authority was accepted with regret and Edward Monier of the Franklin Paint Co. was appointed to that Commission.

Due to the resignation of Connor Pond as Fire Chief, Charles Guerra was appointed to fill this office.

Parking Meter Receipts for the past year were \$7,158.80.

We wish to thank the various elected Boards, Department Heads, and Committees for their whole-hearted cooperation and assistance during the past year.

Respectfully submitted,

JAMES DACEY  
WILLIAM D. O'NEIL  
CHARLES F. HOOPER

## ANNUAL REPORT OF THE BOARD OF PUBLIC WELFARE TOWN OF FRANKLIN

**FOR THE YEAR ENDING DECEMBER 31, 1962**

To the Honorable Board of Selectmen:

The breakdown of the 1962 appropriation of \$150,000.00 will be found in the Auditor's Report.

The following are the major changes put into effect by the State Department of Public Welfare during 1962:

An increase of \$1.00 on each case for transportation allowance went into effect on Old Age Assistance October 1, 1962.

Aid to Dependent Children will supplement Armed Service allotments for those called to active duty, providing all other eligibility factors are met.

Local Boards are to increase Social Services to Public Assistance recipients to "strengthen family life, safeguard children in hazardous home situations, and reduce dependence through effective programs of rehabilitative services". Case load standards are being studied by the State, and it is expected that 50 families per case worker will be the standard in our town.

Residence requirements for Old Age Assistance recipients have been reduced to one year immediately preceding the date of application.

Aid to Dependent Children is available to unemployed parents not eligible for Unemployment Security, and the period has been extended from June 30, 1962 to June 30, 1967.

Towns are no longer responsible for foster children placed with the Division of Child Guardianship.

Exemptions on the liability of children of O.A.A. and M.A.A. parents, have been increased \$1,000.00, thereby eliminating many legal obligations which have been applied to parent's budgets, as resources.

Persons released from State Mental Institutions are now eligible for aid, should all other eligibility factors be met.

Public Assistance is to be given to Cuban refugees.

Nursing Home rates were increased from \$6.50 to \$6.85 per day in January 1962.

We have been advised that hospital rates will be increased in 1963.

Federal Grants on hand January 1, 1963 are \$1,611.68 less than on January 1, 1962.

The total visits made by the Director and Social Worker during 1962 numbered 899.

In our local office, Miss Santina Cataldo, Director of Public Assistance, retired on July 9, 1962. Mr. Arthur W. Hicks of South Braintree was appointed to replace her on that date.

The Welfare Board and Staff wish to express their appreciation to the other Town Agencies and Departments, especially the Police De-

partment, and to the Clergy, Court officials, and Community Organizations, for their continued cooperation.

We herewith submit our estimates for the year 1963:

Welfare Assistance	\$160,000.00
Welfare Administration	\$ 14,000.00

Respectfully submitted,

JOSEPH DICKENS  
WM. F. CARBERRY  
CORNELIUS F. JOHNSON, JR.

Board of Public Welfare

#### DEBT LIMIT FOR THE TOWN OF FRANKLIN

Following is a computation of the amount which the town may legally borrow in addition to its present debt as allowed under Chapter 44, Section 10, G.L., which reads in part as follows:

"A town shall not authorize indebtedness to an amount exceeding five per cent, on the average of the assessor's valuation of the taxable property for the three preceding years, the valuations being first reduced by the amount of all abatements allowed thereon previous to December thirty-first of the preceding years; provided that the value of Motor Vehicles and Trailers taxable under Chapter 60A, as determined thereunder, shall be used in determining the valuation of taxable property for the purposes of this section. All authorized debts except those expressly authorized by law to incurred outside the debt limit, shall be reckoned in determining its limit of indebtedness, under this section."

## REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Franklin:

Your School Committee hereby submits its annual report for the year 1962.

The detailed and comprehensive reports of our Superintendent of Schools, accompanied by the reports of our various school principals, heads of departments, director of athletics, and school nurse contain information that will enlighten our citizens in the problems, conduct, financial operation and educational needs of the school system.

Your Committee believes that the educational system of Franklin has been maintained and improved to a high degree of efficiency, and that is due, not only to the ability and efforts of those in charge, but also to the spirit of cooperation manifested by the parents, teachers, and pupils.

### Enrollment

Our school population continues its rapid growth and the total enrollment in October was 2,311, an increase of 116 over the previous year.

Because of the opening of our new High School, many changes were made in the use of our facilities eliminating the need for double sessions from the fifth grade through high school.

### New High School

Classes were conducted in the new Franklin High School starting October 1 with an enrollment of 631. The gymnasium and auditorium were completed in December and on Sunday, December 30th, open house was held.

This new school, with its modern facilities, offers unparalleled opportunities for learning and will also enhance the educational, cultural, and social life of our community.

### Existing Facilities

Changes in the use of existing facilities which became effective in September were as follows:

- (a) Old High School used as a Junior High School.
- (b) Old Junior High School used for the fifth and sixth grades.
- (c) Horace Mann grade school used for elementary purposes.

### Budget

The cost of operating the school system shows a marked increase in the 1963 budget. This is the result of the following causes: teacher salary increases resulting from a new state minimum of \$4,500 and new resultant salary scale, salary increases to all other personnel, additional teachers, janitors, clerks and nurse, increased cost of operating new larger High School, increased transportation expenses, and equipment needed for new High School.

### New Salary Scale

Step	Group	Bachelor's Degree	Master's Degree	Credits Needed
1	A	\$4,500.00	\$4,800.00	3
2		4,700.00	5,000.00	
3		4,900.00	5,200.00	
4	B	5,100.00	5,400.00	3
5		5,300.00	5,600.00	
6		5,500.00	5,800.00	
7	C	5,700.00	6,000.00	5
8		5,900.00	6,200.00	
9		6,100.00	6,400.00	

10		6,300.00	6,600.00	
11	D	6,500.00	6,800.00	5
12	Maximum	6,700.00	7,000.00	Total 16
Maximum plus longevity				
	(20 years)	6,900.00	7,200.00	

In order to qualify for Step 12, each teacher may be required to attend (1) summer session covering at least four (4) credit hours at the discretion of the School Committee and Superintendent.

No partial increases will be allowed. One must fulfill all requirements before September.

Non-credit and audit courses will not be acceptable for credit.

The minimum qualifications for new teachers shall be a four (4) year college degree with three (3) years' successful experience, preferred for high school teachers.

The policy of the School Committee will be to limit appointments in the elementary schools to graduates of teachers' colleges, schools of education, and liberal arts colleges who have prepared specifically for teaching in the lower grades.

In order to move from four (4) year level to five (5) year level, a Master's degree shall be required.

Compensation for all extra curricular work will be decided annually by the School Committee.

The salaries of teaching and supervising principals, supervisors, department heads, vocational and special subject teachers will be decided annually by the School Committee.

All courses must be approved by the Superintendent of Schools.

### **Ungraded Primary**

The School Committee granted permission to Mrs. Ostrander, Principal of the Parmenter School, to conduct an ungraded primary in the first three grades in the Language Arts area as an experiment for the 1962-1963 school year.

The purpose of this plan is to allow each student to advance at his own individual rate in accordance with his own ability.

### **Overcrowding in the Elementary Grades**

Although ten extra rooms were used for the first six grades, overcrowding could not be eliminated starting in September and classes in excess of 32 were common. An unusually large enrollment total of 116 more than the previous year created an unexpected condition.

### **Transportation of School Children**

The location of new homes and families moving into Franklin are not within one and one half miles of existing schools causing a massive expensive transportation problem. Approximately 1,800 out of 2,300 children have to be transported daily requiring a total of 17 busses.

### **New Elementary School**

Because of the ever increasing school population which is evident in the overcrowded elementary classes, more classroom space must be made available to keep pace with the new home developments.

If this problem is to be solved in the immediate future, public support must be given to the recommendations of Mr. Guary Circone's investigating committee, otherwise double sessions will have to be inaugurated again.

### **Summer School**

Under the sponsorship of the Parent-Teachers Association another very successful summer school was conducted. One hundred and twenty-nine students were enrolled. The following subjects were offered with teachers indicated:

Algebra I, II	Mr. Kenneth Rose
Geometry	Mr. Kenneth Rose
French I, II	Mr. Winslow Weeks
English	Mr. Winslow Weeks
Civics,	Mr. Edward Rabaioli
History, World,	Mr. Edward Rabaioli
Modern and U. S.	Mr. Edward Rabaioli
English	Mr. Warren F. Griffin
Science	Mr. Warren F. Griffin
Biology	Mr. Warren F. Griffin
Driver Education	Mr. Warren F. Griffin

Remedial Arithmetic	Mrs. Grace Ostrander
Remedial Reading	Mrs. Grace Ostrander
Typewriting	Mrs. Priscilla Pond
Bookkeeping	Mrs. Priscilla Pond
General Math	Mrs. Priscilla Pond

Mr. Henri Beane was director. Its purpose is to aid students having scholastic problems and it is financially self-supporting.

### Maintenance of Buildings

Repair work during the past year consisted of the following major repairs:

**Junior High School —**

Painting hallways, ceilings, kitchen, and cafeteria. Waterproofing two sides of building.

**Horace Mann School —**

Roof repairs, painting.

**Parmenter School —**

Painting kitchen and shower rooms.

**Ray School —**

Painting ceilings.

**Theron Metcalf School —**

Rebuilding firebox.

We wish to commend the Superintendent of Schools, the principals, supervisors, teachers, and janitors, and all others engaged in the operation of the public schools for the fine spirit of cooperation shown in their continued efforts throughout the year.

Respectfully submitted,

## ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Franklin School Committee:

It is a pleasure to submit my annual report on the condition and status of the Franklin Public Schools. This is my ninth report as Superintendent and the seventy-second in the series of reports.

During 1962 Franklin took a major step forward in providing educational facilities with the opening of the Franklin High School on Oak Street. This modern plant, built at a cost of \$1,853,000.00 provides excellent educational space for our secondary school population. Its classrooms, shops, administrative facilities, laboratories, gymnasium, cafeteria, auditorium, playing fields, etc. are among the finest in this area.

In providing this school plant Franklin added forty classrooms to the fifty-five in existence. It follows that this increase is reflected in an increase in teachers, custodians, light, heat, power and other necessities for the maintenance and operation of the schools as a whole. Our teaching staff increased by twenty-one this year, making a total of one hundred six. The custodial staff now numbers twelve full-time men and one part-time helper, an increase of five over 1961.

This year, for the first time, Franklin has a guidance department. Mr. James H. Sibson was appointed guidance director, having had many years in similar posts in other towns. We have also added a high school librarian to our staff, an absolute necessity for the operation of an adequate high school.

Our school population continues to increase. At the present time our enrollment is 2,330, an increase of two hundred sixty-seven over June of 1962. We expect that the enrollment in September, 1963 will be at least 2,450 pupils.

All the foregoing growth factors are reflected in our 1963 school budget which is by far the largest in Franklin's history. The budget total, just short of a million dollars, is a conservative budget. The increase is largely due to increased salaries made necessary by the new state minimum salary law effective January 1, 1963 and by the impact of all added personnel made necessary by increased enrollment and the opening of the new high school.

At the present time a school survey committee is working to solve the classroom shortage in our elementary grades. Classes in the first four grades are now exceptionally large. It is expected that we will be

able to avoid double session classes for one more school year. Unless some building is done by September, 1964 it is likely that double sessions will have to be reinstituted in our lower grades.

During 1962 we were saddened by the death of one of our finest teachers. After forty years of outstanding service to the youth of Franklin, Mary L. Doherty, teacher of English in the high school, retired in the fall of 1961. Her death occurred in the summer of 1962. It is well to pay tribute here to one whose quiet devotion to duty, sense of justice, great teaching ability, and warm personality endeared her to all who knew her.

In 1962 five of our long time employees retired from service. Nellie Saunders, school nurse, deserves special commendation for her forty-one years of excellent service. Vivian A. Rogers holds a special place in the hearts of all who knew her. She served in the schools of Franklin for thirty-nine years. Margaret Welch retired after seventeen years of excellent teaching in our primary grades. Elizabeth J. MacIver retired in November, 1962 after thirteen years in our lower elementary grades. Gertrude Cataldo retired after managing our cafeterias for six years. Others who left our employ during 1962 were James F. Cove, Robert Hebets, Hector Renaud, Howard Rickey, Ruth Shribman, Joannah Brunelli, Nancy Borden, Dorothy Hawisher, Anne O'Brien and Teresa Brown. Of this number, two left to accept other teaching positions.

Teachers with us for the first time this year are Joseph Arcudi, J. Foster Cass, A. Diane D'Angelo, Alan S. Evans, Esther M. Farmer, Edward F. Fitzgerald, Robert J. Gaura, Charles A. Hinckley, Patricia L. Jack, Edna B. McManus, Grace Najarian, Roger Rainville, Leo G. VanBeaver, Naomi Grossman in the High School, Edward Colace, John P. Costello, Oliver W. Lessard, Patricia A. Lynch, Florence Markee, Carolyn C. Kingsbury, Joyce Z. Steifel in the Junior High School, Mason B. Kingsbury, Lois C. Davis, Carla S. Gifune, Robert E. Graham, Marjorie A. Ficco, Joan T. Noonan, Helen M. Speiler, Dolores A. Delaney and Joyce McCarthy in the elementary grades. Marie L. Derie is our school nurse and Mary Bertoni is our manager of school cafeterias.

During 1962 Franklin schools continued to operate efficiently. One interesting new development is the institution of ungraded primary work in reading and other language arts areas in the Parmenter School. We look to this method of teaching with optimism and hope to expand the use of it to other primary grades if its promise of better teaching is realized.

The following part of the annual report is taken from the reports of principals, department heads, supervisors, and others responsible for certain areas of our operation. Credit is hereby extended to them for their excellent reports.

## HIGH SCHOOL

Our enrollment in this school continues to increase. It is expected that there will be nearly seven hundred fifty pupils in the high school when it opens in the fall of 1963. Since our large spaces—gymnasium, library, auditorium and cafeteria—were built with expansion of the student body in mind, it is expected that the school will be adequate for the present and that by adding classrooms in about five years, the school will suffice for the foreseeable future.

In October of 1962 we entered our new plant, which, at that time, was about 80% completed. At this writing all facilities are in full operation. The school year thus far has represented what might be called a shake down cruise, as we become accustomed to our new and expanded facilities. Needless to say, moving from a "have not" to a "have" status has proved exhilarating, both to students and to faculty. It is our aim to use all the new facilities to their fullest capabilities so that every student may benefit.

With our expanded facilities we are able to carry out to a higher degree the plan to let our students progress at their own rates within a given curriculum area. Essentially we have chosen English and mathematics as guide lines to placement of individual students within his class. For example, we are offering English and mathematics on eight different levels in the freshman year. With our entry to the new building we were able to expand curriculum offerings to include business machines practice, extended typing, ceramics, foods, clothing, automotive shop, sheet metal shop, and Spanish. We are planning a pilot course in Russian. At present our curriculum is meeting a variety of demands, and, we feel, is equal to any comparable school in Massachusetts.

In spite of double sessions last year, our student body achieved at a very high level. We feel singularly honored that we have one finalist and four winners of letters of commendation in the National Merit Scholarships. This achievement rates with the so-called better schools within the Commonwealth. With our expanded facilities we feel certain that our achievement will be even greater in the future. More than 65% of our students went on to some further education last year, a noteworthy achievement.

The scope of activity of our students has greatly increased this year. In addition to the normal complement of extra curricular activities, we have added a Future Teachers Club, a Future Nurses Club, a Weight Lifting Club, and an extensive intramural program for boys and girls. We continue to excel in dramatics. Last year our school was again honored to reach the finals in state competition.

One of our major concerns is discipline and home study. The field of discipline involves unexcused absence and tardiness as well as deviations from the normal behavior of students in the school community. Incidents in these areas have increased tremendously. There seems to be a need for greater rapport between the school and the home. In the hope of increasing understanding between home and school, there will be an orientation meeting for parents in September of 1963. The purpose of this meeting will be to acquaint parents with the school's standards and attitudes toward acceptable behavior in the school situation. In this way it is hoped that co-operation between home and school will be enhanced through understanding.

## GUIDANCE

There are six basic services in a guidance program. These are the individual inventory, the testing program, counseling, educational and occupational information, educational and occupational placement, and follow up. The following paragraphs describe these services.

**Individual inventory.** At Franklin High School there will be a cumulative guidance record for each student. This record contains such information as date of birth, family history, extra curricular activities, vocational plans, academic grades, test results, health data, scholarships, absences, work experience, and interview comments. Formulation of all this data allows the counselor a greater insight into the student so that he may meet the needs of the individual more completely.

**Testing Program.** We are starting a full testing program which will begin with grade nine. Special aptitude tests to determine mechanical aptitude will be administered to all pupils as well as the usual intelligence and interest tests.

**Counseling.** This is the very heart of the guidance program. In the counseling session the counselor can learn a great deal about the student. He is able to obtain important clues as to the pupils' attitudes, school and life aspirations, and vocabulary levels.

The counselor uses all this information to help the student gain a good self-concept or understanding of himself so that realistic voca-

tional or educational goals will be selected. It must be remembered, however, that the counselor makes no decisions concerning the student's future. Each student makes his own decisions. The counselor will provide information and help think the problem through, but in the final analysis each student makes his own decision.

**Educational and occupational information.** Students should become familiar with the world of work. It is not necessary to decide on a specific occupation, but it is desirable to select a general area in which one would like to work. Our guidance library will make this type of information available to students.

**Educational and occupational placement.** The Guidance Department cooperates with the Milford office of the Massachusetts Division of Employment Security and other agencies in the occupational placement of graduates. The Department works closely with the many educational institutions in the area to obtain proper placement for students who wish to further their education

**Follow up.** One way to find out whether a product is good or bad is to "ask the man who owns one." In education the follow up study is the method used to find out how effective the school has been in meeting the needs of its consumers—the pupils. The Guidance Department will maintain contact with graduates in order to obtain this information. The services of this department are also available to any graduates or residents of Franklin who need them. A special reunion, sponsored by the Guidance Department, will be held annually during the Christmas vacation. The purpose of this reunion will be to allow undergraduates the opportunity to speak with graduates who are working, in the armed forces, or attending school, and to get some realistic opinions and views about what happens after Graduation Day.

## JUNIOR HIGH SCHOOL

Our enrollment for the 1962-1963 school year reached 401 on October first, 1962. There were 190 in grade eight, 176 in grade seven and 35 in grade six. Since we are in a new building this year, it is possible to have all pupils on single sessions. It has been possible, also, to add industrial arts, home economics, and French to our curriculum. We are also able to offer art and music to every pupil once a week and to improve our physical education program. We now include intramural sports for boys and girls in our program.

This year clubs and activities are in progress as are assembly programs and dramatics.

The condition of the school plant as far as cleanliness is concerned has been good, but renovations and repairs are needed to maintain the building and make for efficient operation. Some needed repairs are: heating system, furniture, a larger cafeteria and kitchen, pupil lockers, improved toilet facilities, painting, lights, and bulletin boards.

### **THERON METCALF SCHOOL**

Enrollment in this school for 1962-1963 is 339. There are 146 in four sixth grades and 193 in six fifth grades. We have started a program of cooperative teaching where we use the strengths of our teachers in particular subject areas. This device is used in grade six.

All fifth grade pupils are participating in the T.V. series in French and science. All sixth grade pupils have French once a week with Miss Lynch of the Junior High School staff.

Our physical education program is inadequate because of lack of space and lack of personnel. Our art program is progressing very well. We use one of our rooms as an art room which is proving to be worthwhile.

Some of our immediate needs are space for hot lunch serving, space for physical education, new floors in classrooms and corridors, ceiling repairs, and some library facilities.

### **HORACE MANN SCHOOL**

The enrollment of the Horace Mann School as of October 1, 1962 was 277. There were 128 girls and 149 boys.

There was one change in the teaching staff at our school this year. Mrs. Robert Noonan replaced Mrs. Murray Brown, a third grade teacher who resigned in June.

Miss Patricia Lynch gives our third and fourth grade classes instructions in conversational French each week.

Foreign language teachers agree that the time to start learning a modern language is in the elementary school. Young children hear new sounds and imitate them easily. Miss Lynch and the classroom teachers find this to be true and are pleased with the results.

Mrs. Voetglin, the speech therapy teacher, has started working with the pupils who have speech difficulties.

A student teacher, Miss Constance Kozimor from Bridgewater State College, is in training at the Horace Mann School during this semester.

We are continuing with the Educational Television programs, Grades three participate in the literature and French programs. Grades four view the science and French lessons. There are difficulties in scheduling televised courses into the school day, however we try to manage to include them because they do serve educational purposes.

This year we decided to invite people who have visited other lands to speak to our groups. Raymond Gauvin, R.M.C. who recently returned from Persia talked to the children in grades three on the Middle East, the people and customs there. Miss Wendy Gates, a social anthropologist student at Radcliffe who spent her summer on the island of Trinidad, told the fourth grade students about her experiences. We hope to do more of this sort of thing in the future to give the children a better understanding of the world outside the United States.

Next year we plan to give some time to evaluating our social studies curriculum.

In arithmetic we are very well satisfied with the diagnostic testing program we are using. There are, at the elementary level, new approaches to mathematics. In one fourth grade we are experimenting with cursenaire rods, new mathematical materials. They are used to get a better understanding of concepts and teach the child to think out solutions for himself.

The major problem at this school is to provide a sanitary and suitable place for the children to have lunch. Presently, we are using the classrooms for lunchrooms. This is an improvement over last year's set up when we used the cafeteria at the high school. However, the existing plan is not a good one, and there is an increasing dissatisfaction with the arrangement. Some place outside the classrooms should be converted into a lunchroom area, as soon as possible.

### PARMENTER SCHOOL

In September, 1962 the non-graded plan was inaugurated in all three grades in the language arts area of the curriculum. For two hours every morning, from 10:00 A.M. to 12:00 noon, the children move to a reading teacher, according to their level of reading ability. The rest of the day, the children have their instruction in arithmetic, science, music, social studies, physical education, health and safety with their home room teacher.

New pupils entering from other schools are given an informal oral and silent reading test with vocabulary and comprehension check for group placement.

In October and November we tried a pilot program in team teaching in science and music at the second grade level. Two teachers worked together, one taking the science and the other music. The idea of this plan was to use teacher strengths and talents to the best advantage. In December this plan was discontinued at the teachers' request. They found that combining classes of children of primary age did not produce the best results. For films and filmstrips and use of charts and exhibits, it seemed feasible, but for the follow up, discussion and testing, it was not satisfactory. Small group instruction seems to be better at this level.

The teachers at Parmenter meet every Monday afternoon after school to compare grouping levels, regroup, if it seems desirable, and discuss any problems which have arisen. In addition to these weekly meetings, the teachers spend one afternoon per month, from 1:00 to 3:00 P.M. on curriculum study. We are working on a science course of study for the primary grades. The main objective of this course of study is to provide a background of readiness in several branches of modern science for further development in the upper grades.

**Recommendations.** (1) **Kindergarten.** From our experience with little children, we feel that the establishment of a kindergarten in the Franklin Public Schools would be a great boon to our educational system. From results of readiness tests administered upon entrance to first grade, those children who have had kindergarten experience are found to be more nearly ready for the school situation and to learn to read than those who have not had this preparation. Without kindergarten, most children need a period of adjustment to school and a program of reading readiness before they are ready for first grade work. This period may be several months; in some cases, the whole first year. This is unfortunate, since some children must start their school life spending two years in one grade.

(2) **Small classes.** The basic philosophy of our educational system is instruction for each child according to his needs and abilities. Our present large class size is a deterrent to the best instruction for the children since the available time must be divided as equally as possible among all the children. This is especially true at the first grade level where our numbers are the largest and where individual attention is very necessary. We would hope that arrangements be made for next year to keep each class under 30; preferably 25 to 28.

(3) **Opportunity Class for the younger children.** Our one opportunity class is limited in its scope, since it provides only for the older children. We need another class for the six to nine year old children. Some of these children are mentally two or three years behind their chronological age and need specialized attention which it is impossible to give them in a regular class. At the same time they require more individual attention than the average children because of their retardation.

The foundation for academic success is laid in the primary grades. With a kindergarten, small classes and an opportunity class for the young children, our school system would be in good condition to provide this foundation.

### **RAY SCHOOL, FOUR CORNERS SCHOOL, BRICK SCHOOL**

These are our three neighborhood schools. In the Ray and Four Corners schools we have one of each of the first four grades. In the Brick school we have thirty-five first graders.

Normally neighborhood schools are the best kind for small children. It is good for them, their parents and their teachers if they can walk to school, have a hot meal at home during lunch time and return to school for the afternoon session refreshed. Unfortunately, we are not able to operate these schools exclusively as neighborhood schools. As our population has increased, young parents have tended to settle on the outskirts of town making it necessary to have bus pupils attend these schools. This makes it necessary to have lunches at the schools for many pupils. Thus the neighborhood school becomes a commuter's school and does not have the characteristics of the preceding which in my opinion lends it strength.

These three small schools are doing excellent work. Pupils in these schools achieve well above national averages. The atmosphere of the schools is excellent. Children and teachers work very well together. Principals of these schools are teaching principals. It might be well in the future to think of a single supervising coordinator for the three schools since the work of a teacher and the work of a principal are each full time.

So far as the writer is able to determine, our little Brick School is the oldest public school in New England in point of continuous operation. There have been classes in the school each year since 1833. The school has a special place in the affections of Franklin. It is hoped that it continues its good work for many years to come.

There are on file in the Superintendent's office reports on music, art, handwriting, high school English, business education, industrial arts, science and audio-visual aids as well as physical education, home economics, athletics, school lunch, driver training, evening courses and the testing program. Since these reports are somewhat technical in nature and in the interest of conserving space in this report, they are omitted. Anyone interested in a particular report may read it in full at the Superintendent's office.

We continue to grow, both as to pupils and costs and as to stature as an educational institution. Many changes have been made. Many more will come. As we face the future our keynote should be optimism rather than pessimism. It is my belief that Federal and State funds will become available to help ease the burden on the property tax for the support of education. I believe we will move forward to hold our place as one of the better school systems of Massachusetts. This will be done with the continuing help of you, the citizens of Franklin. Without that help we are powerless. With it, great things can be accomplished.

Respectfully submitted,

BENJAMIN D. THOMAS

## REPORT OF THE SCHOOL PHYSICIANS

For the year ending December 31, 1962

Number of pupils examined in schools	857
Number of defects noted	118
Number of defects requiring notice to parents	101
Eyes	3
Heart	10
Ears (wax)	32
Feet (low arches)	31
Hernia	6
Dental	4
Kidneys	1
Undescended testicle	2
Tonsils and adenoids	12

Number of defects noted but not requiring notice to parents	17
Ears (wax)	4
Feet (low arches)	1
Asthmatic chest	2
Tonsils and adenoids	10

In addition to the above, complete examinations done in the schools, we are also required to examine football and basketball players in both the High School and Junior High School before they are permitted to play. Football games are covered at home. Pre-school children are examined. Work certificates, school certificates and First Aid are given in our offices.

The cooperation of the school faculty and school nurse is appreciated.

### REPORT OF THE SCHOOL NURSE TO THE SUPERINTENDENT OF SCHOOLS

Dear Sir:

The following is my report as School Nurse in the Franklin Public Schools for the first four months of the 1962-1963 school year.

The health program in Franklin concerns the whole child—that is, his physical, mental, and emotional development. Therefore we work and cooperate with our guidance department, teachers, doctors, and parents.

A total of 480 physical examinations has been completed by our School Doctors. This includes the varsity, freshmen, and junior high school football teams, students, both boys and girls on the basketball teams in the high and junior high schools, and routine examinations in grades one, four and seven.

Defects noted have been reported to parents and they are to be taken care of by their family physicians.

Due to the large enrollment and the number of schools, it has been impossible to visit each school weekly. The nurse is available for an emergency. However, if she cannot be reached immediately, the principal of the building administers first aid and notifies the parents.

The Mantoux test has been given to the juniors in the high school and the toxoid clinics have been held in grades one through six.

One day a week has been spent in helping Mrs. Voegtlin, the speech therapist, get orientated to our system.

I wish to thank Mr. Thomas and all school personnel for their wonderful cooperation.

Respectfully submitted,

M. LORRAINE DERIE, R.N.

# **REPORT OF THE SUPERVISOR OF ATTENDANCE TO THE SUPERINTENDENT OF SCHOOLS**

Dear Sir:

Following is my report as Attendance Officer for the public schools for the year 1962.

Number of visits to schools	84
Number of absentees reported	108
Number found to be sick	53
Number returned to school	39
Number found to be truants	16
Number of court cases	7

Respectfully submitted,

ARTHUR C. PELLEGRINI

## REPORT OF POLICE PHOTOGRAPHER

To Honorable Board of Selectmen:

Police Photography is used mainly for the photographing of evidence for Court use. The greater percentage of this would be automobile accidents.

The Police Photographer receives an annual salary of \$350.00 per year. For this he is subject to call 24 hours a day, seven days a week, plus the expense of providing his own transportation. The Photographer's job consists of taking the photo, processing the film and the printing of the actual picture. This constitutes many hours of his own time.

The removal of the Police Station from the Morse Block last July left me without a darkroom so that I was unable to do any processing of film after that time. However, through the generosity of the two local Woonsocket Call reporters we still had photography service.

At the beginning of 1963 I was able to set up a darkroom in a private home so that I am now able to do processing once again.

## REPORT OF PARKING METER REPAIRMAN

To: Honorable Board of Selectmen

Re: Report from Traffic Meter Repairman

From: Patrolman Daniel Crosta

Honorable Board of Selectmen:

Gentlemen:

As Parking Meter Repairman I am called back to duty to repair jammed and broken meters. Following is a list of my activities with meters during 1962.

Repaired 501 jammed meters.

Replaced three meter heads that were damaged.

Replaced three pipes that snapped when I was fixing them.

Replaced 6 frames on the time mechanisms that cracked.

Replaced 47 glass domes that were broken by vandals.

Replaced 15 hubs that were broken by town plow.

Oiled all meters twice, once in Spring and in Fall.

Replaced 35 springs that control indicator and timer.

Replaced 6 new locks that were jammed and bent.

Fixed all meters with spare parts that I had taken from meters that had been broken by accidents.

Time spent repairing meters in 1962, approximately 300 hours.

I need a new supply of parts as I used most of the parts during the past year. I also need two new meter heads.

The meters are nearly seven years old and need constant attention to keep them in good working condition.

Respectfully submitted,

PATROLMAN DANIEL CROSTA,

Parking Meter Repairman

**WARRANT FOR THE ANNUAL TOWN MEETING****MARCH 12, 1963****COMMONWEALTH OF MASSACHUSETTS**

Norfolk, ss.

To either of the Constables of the Town of Franklin in the County of Norfolk.
